The government will now furnish autos for Taft, Sherman and Cannon. An appropriation of \$6,000 has been made for autos for Cannon and \$6,000 for Sherman.—Pratt Union.

They got it—in the terest in the pending legislation except so shape of increased taxes, from \$7000 far as it adds to their already swollen to \$70,000 per county. What fools fortunes. But they are making an extra effort anyway and there are many "easy" ones who will swallow the taffy and call it good, merely on the theory that what-ever the republican party does is right.

The politician is a foxy cuss. He can lead people around by their noses and make them vote Eurdens on themselves in order that the said politician may live in the land of luxury without rendering the state, the people or the country any service. It seems that the great majority of the voters will never get tired of voting needless taxes on themselves.

Congressman Madiron will have the naming of a Census Supervisor for this congressional District. The appointment is not to be announced till January 1910, but Mr. Madison will be looking the available timber over between now and that date. The position pays not less than \$1500 nor more than \$2100 per year, in cold cash, besides the distinguished honor that goes with the job. Someone has suggested that these supervisorship soft snaps will go to the editors over the state, and since newspaper men are all so modest, Judge Madison may have to "draft," some good Republican patriot of the "scissors and paste" profession to relieve him of this Congressional

There is a general roar going up from Maine to California over the fact that the new tariff law is likely to take more money out of the pockets of the consumers than the old law. Senator Aldrich admits this when he estimates that the bill as it passed the senate based on the amount of goods imported last year, will yield about 15 million dollars more than the old law yielded. If it does then it follows that the import tax must be higher.

It has been estimated that if the bill becomes a law as pushed through the senate it will add to the cost of every suit of clothes worn by laboring men and increase the price of hosiery for every woman in the United States. The estimate may be correct.

We are making no apologies for the for Aldrich bill. We think that it has been devised and pushed through the senate in the interest of manufacturers who have already fattened at the expense of the where the recalcitrants have taken steps to stop the cause for the collection of

A Washington correspondent for the Chicago Tribune sends to his paper the following dispatch: "William Jennings Bryan need not expect the active sup-port of President Taft ino btaining the submission to the people of an amend-ment to the constitution authorizing the popular election of senators. The president has no intention of interfering directly in what he considers to be manifestly the business of congress alone. Certainly he will make no formal recommendations on the subject at this time when congress is in extra session for the single purpose of revising the tariff. This attitude of Mr. Taft is in keeping with that which he has uniformly observed since his assumption of the office of president. In attempting to induce him to depart from it, Mr. Bryan will have the support of republican senators like Bristow of Kansas, LaFollette of Wisconsin, and Address by Dastor—The Sunday School
